4 About Roca 8 Colour Your Day 13 Technical Information

We make people live the best bathroom experience

Barcelona.
Since 1917,
79 Production facilities,
5 Continents,
20,000 People,
170 Markets.

Roca is a family-owned company dedicated to the design and production of solutions for the bathroom space. From our beginnings, we have grown into one of the largest producers of bathroom products in the world.

Our designs are intuitive and intentional, driven by a philosophy of continuous improvement. Our team of experts works with leading international designers to create products that push the boundaries of innovation, refining your bathroom while bringing comfort and simplicity to your daily routine.

Despite our presence in over 170 markets, we have remained close to our Barcelona roots, contributing to and drawing inspiration from its vibrant design culture. Our products are designed for efficiency and durability, and sustainability is ingrained in everything we do — from sourcing materials to production logistics, packaging and shipping.

Beyond our products, we address critical challenges through the We Are Water foundation, promoting sustainable water management and improving

access to clean water in disadvantaged communities. We are also committed to fostering talent and creativity.

Our design competitions provide opportunities for emerging designers, while our Roca Galleries and digital platform rocagallergy.com host events, discussions, and feature articles on key global issues.

As a leading multinational, we actively participate in key international design and architecture events, demonstrating our commitment to innovation, sustainability and teamwork, and engaging with professionals and the wider public around the world.

We celebrate the small, everyday moments of domestic happiness. At the heart of our business is the desire to develop attractive and functional solutions that make people live the best bathroom experience.

Our Planet
Our Home

We are committed to putting people and the planet at the center of every decision we make. Because creating a sustainable future starts with the spaces we live in, and how we produce these spaces is key. That's why we craft products that bring comfort, beauty, and balance to your home, while protecting the planet every step of the way.

Every detail matters: from eco-designing products that last a lifetime to minimizing emissions, using clean energy, and reducing water and resource consumption. We believe that a home – whether our own or the planet we all share – should be a place of wellbeing, harmony, and care. This belief guides our comprehensive approach to sustainability, which involves taking a wide range of actions, such as reusing and recycling more, improving our processes, and ensuring access to water and sanitation for those who need it most, among many other initiatives.

EcoDesign

Eco-designing for efficiency and circularity: fostering products that are built to last, repairable, and recyclable.

We create long-lasting products with easy-to-replace parts, ensuring extended usability and reducing waste.

Our Life Cycle Assessments (LCA) and Environmental Product Declarations (EPD) provide transparency on our products' environmental footprint.

We design products for easy disassembly and recyclability, such as 100% recyclable shower enclosures, fostering responsible waste management.

Our innovative technologies reduce water and energy consumption, supporting sustainable building certifications such as LEED and BREEAM.

Responsible Production

Preserving natural resources goes beyond using water efficiently. It begins with sustainable production.

We are moving towards emission-free factories with pioneering technologies, including the world's first electric tunnel kiln for sanitary ceramics, aiming for net-zero emissions by 2045.

We rely on renewable energy sources, including Power Purchase Agreements (PPAs) and on-site photovoltaic panels, to minimize our carbon footprint.

Our water neutrality roadmap focuses on reducing, reusing, and recycling water to minimize freshwater consumption.

We reintegrate manufacturing byproducts like chamotte and brass swarf into our production and promote waste reuse across industries to minimize landfill waste.

Commitment to society

Enhancing people's lives and building a healthier, more inclusive, and sustainable future.

We develop solutions for people with functional diversity, reduced mobility, and special needs to ensure comfort, independence and dignity.

Our products and services are designed to promote wellbeing, self-care, and a healthier lifestyle.

Through the We Are Water Foundation, we strive to improve access to clean water and sanitation for those in need.

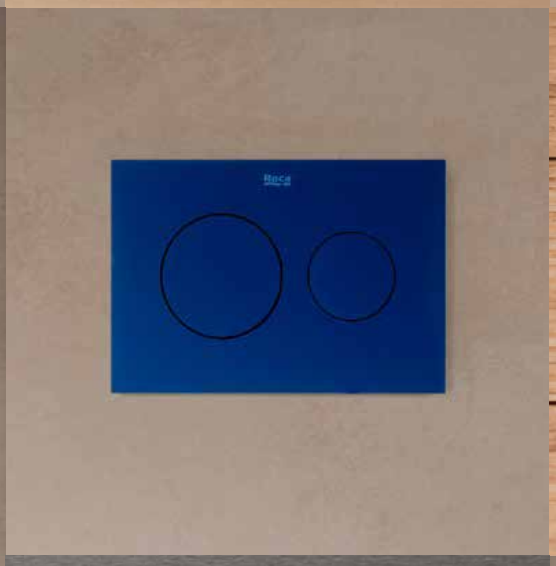

Through Roca Galleries, we promote global dialog that inspires sustainable design, architecture, and urban planning.

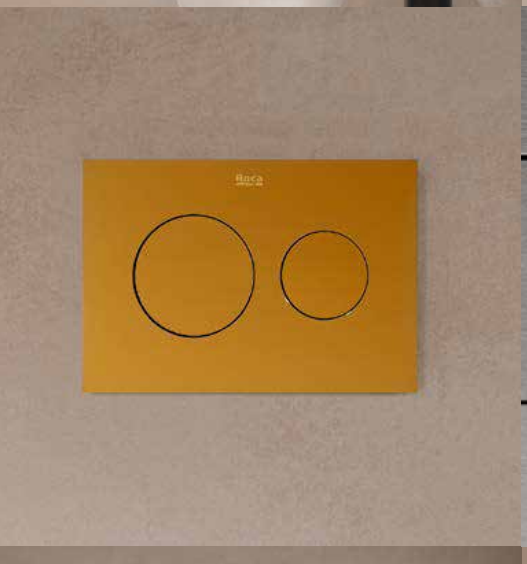

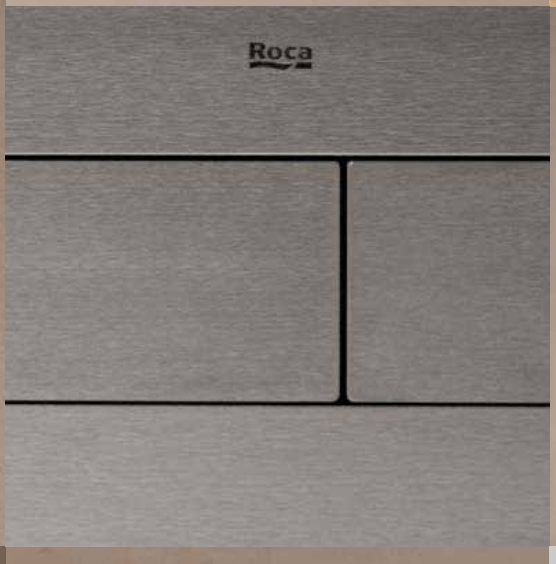

Creating space with meaning

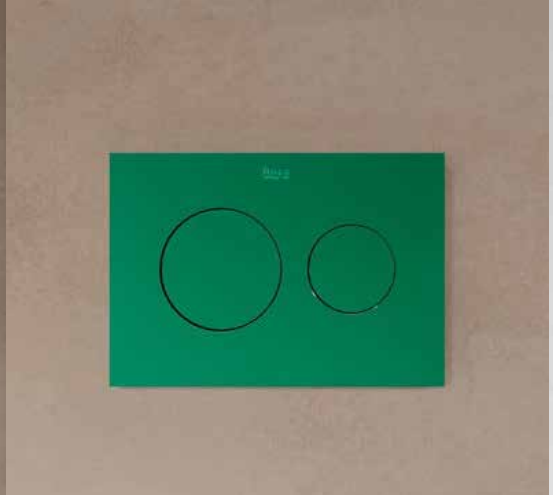

Colour Your Day

We spend nearly an hour each day in the bathroom, making it one of the most personal and intimate spaces in a home. It's where we begin and end our routines, take a moment for ourselves and recharge. That's why how it's designed matters, not just in terms of function, but in how it makes us feel.

Many are drawn to soft neutrals and simplicity, while others find their expression through bold contrasts, rich textures or unexpected colour. There's no single right way to design a bathroom, only the one that reflects you and becomes an extension of your personality.

However, exploring new colours, materials or finishes can sometimes feel daunting. The challenge isn't imagination, but knowing how to begin. Roca's designs simplify the process, making it easier to add personality and style, so your bathroom feels just right for you.

The final touches are where colour plays a bigger role.

Match Your Mood

When you think about designing a bathroom, what's the first thing that comes to mind? For most people, it's tiles or paint. But actually, it's often elements like flush plates, faucets and furniture that pull the whole space together, both visually and practically. There's real science behind it: soft blues and greens can help us feel calm, while warmer, red tones add a sense of warmth and energy. Neutrals, on the other hand, keep things feeling balanced and timeless. In a room that's all about slowing down and recharging, even subtle colour choices can make a real difference. That's why Roca's PS Plates are designed with a focus on mood and atmosphere as much as innovation.

Available in finishes ranging from brushed brass and rose gold to raw materials such as oak, glass, wood, ceramic, slate and concrete, and even bold colours like honey yellow, mint green and cobalt blue, they let you add personality in a small but impactful way. The wide range of colours and materials means you can perfectly complement your bathroom's style or shake things up with a pop of colour. The challenge isn't imagination, but knowing how to begin. With features like small dimensions, customisable designs and flush wall integration, they combine smart functionality with refined style. In a well-designed bathroom, even the smallest details count.

That same attention to detail carries through to Roca's faucets. Inspired by Mediterranean colours, our Nu faucet collection adds a playful and vibrant touch to any setting. It comes in six glossy finishes, including mint green, blue, honey yellow, titanium black, glossy white and chrome, all of which are also available in the PS Plates range. Mix and match the two collections to create a look that takes you right back to the coast.

Designed to Flow

Just as flush plates can shape the atmosphere, larger furniture pieces play an equally important role in defining your bathroom's style and feel. Roca's Volia bathroom furniture collection takes this idea further by effortlessly blending colour, design and functionality. The basin and base unit share the same finish, creating a sleek, unified aesthetic that feels both modern and sophisticated. Whether you go for matt white, onyx, or sand grey, this colour match brings a calm presence to any bathroom.

That said, colour isn't the only thing that makes Volia eye-catching. Its softly rounded edges and generous storage are designed with real life in mind. Inside, an anthracite grey interior pairs with natural veneer organisers to keep things tidy and a clever space-saving syphon creates additional space. The drawer glides open like a dream thanks to smooth, premium hardware. And just like that, voilà, every inch in your bathroom with Volia is put to good use!

While Volia shows how a unified look can transform a space, it's just one of several collections that bring a new dimension to colour at Roca. Ona, inspired by the Mediterranean, comes in tones like matt green, sand grey and light oak. Optica adds a playful pop of contrast with colours like steel blue, light ash and walnut. Tura, shaped by architecture, introduces earthy shades like light terracotta, noble grey and light elm. Each collection makes a statement in its own way, highlighting how colour can set the energy of any bathroom.

Explore all the different colours, textures and materials that can help you create an oasis you'll look forward to spending time in every day.

From Routine to Retreat

What's the vision behind your bathroom? One that energises you as you start the day, or one that helps you unwind and relax? Or maybe a bit of both? When it comes to the bathroom, you're not just choosing tones or finishes; you're crafting a curated atmosphere where colours, textures and materials all come together to bring your vision to life. From subtle to standout, it can become a space that feels natural, comfortable and built for your day-to-day routine. Go ahead and make it your own!

Smart Toilets

Roca's smart toilets offer a range of options to suit different preferences and budgets combining cutting-edge technology, hygiene and comfort to provide users with a modern and connected bathroom experience. Personalised programme settings and easy maintenance and cleaning management can be tailored to individual needs through the App Control.

Combining cutting-edge technology with maximum hygiene and comfort

Flushing

Exceeding water pressure limitations

Thanks to the innovative siphonic trap design, Tankless performance remains unmatched, achieving superior cleaning in low pressure conditions, enabling more sustainable water usage.

New Rimless® Flushing

Pioneering flushing experience by introducing Roca's new Rimless® *. A highly-efficient bowl designed to optimize water flow, flush performance and hygiene.

* Utility Model Patent Certificate No. 17902876: Flushing water dispenser and toilet with it.
Utility Model Patent Certificate No. 16195667: Toilet.

Hygiene Flush

Another signature feature by Roca, which enables thorough cleaning and subtle aromatization thanks to a freshening dose released with every flush.

Hygiene

Dual UV light

Dual UV light for inner water and nozzle, effectively disinfect more than 99% bacteria, avoid the breeding of bacteria and ensure hygiene.

Electrolytic water disinfection

Electrolytic water disinfects the nozzle before and after use. The killing rate of Escherichia coli and Staphylococcus aureus can reach 99%.

Supraglaze® Ag+

Updated Supraglaze® Ag+ Anti-bacterial and easy-to-clean design to safeguard user's well-being.

Antibacterial seat & nozzle

Antibacterial seat and cover. Special material with silver nano can kill most of the bacteria.

Odour elimination

Deodorizing technology with diatom filter.

Comfort

Comfort seat
It redefines the toilet experience with a bigger inner seat to reach new levels of comfort.

Foot sensor
State-of-the-art sensor on the lower part of the toilet, which enables flushing by touching it with the foot. Ultimate convenience to activate the flushing system.

Night light
Configurable night light with long-life LEDs on both sides.

Super turbo dryer
The warm air released by the drying outlet under the nozzle is affected by the Coanda Effect and flows upward in the direction of the wind to accurately dry the human body. Super turbo dryer speeds up the drying for better cleaning experience.

Bathroom Collections

The design and innovation of bathroom collections that transform the everyday bathroom experience is woven into the 100-year history of Roca. A combination of traditional stoneware and high-tech innovation in ceramics generate durable and anti-bacterial surfaces with new aesthetic possibilities for different shapes and designs. Technologies such as Roca Rimless® underscore the company's ongoing passion to create the best bathrooms for everyone. An extensive range of styles can be found in washbasins, toilets and bidets. Each piece is set apart by their diverse aesthetic and remarkable longevity, a key characteristic of sustainability.

Each piece is set apart by their diverse aesthetic and remarkable longevity, a key characteristic of sustainability

Fineceramic®

Lightness
Thinner walls that allow basins to be shaped with 40% less thickness.

Firmness
Innovative formulation creating parts that are 30% more resistant than conventional ceramic products.

Durability
High resistance to abrasive products and ultraviolet light.

Ever shining
Exclusive glaze that maintains the shine and performance throughout time.

Resistance
Ensure the stability under abrasive, extreme temperature and UV light.

Maximum hygiene
Non-porous surface that prevents the absorption of water and therefore, the proliferation of humidity and bacteria.

A combination of traditional stoneware and high-tech innovations in ceramics enable new aesthetic possibilities

Surfex®

Sophisticated finish
Pleasant to the touch, smooth and matt, the result of its mineral and resin composition.

Variety of shapes
Highly malleable material that adapts to the most varied profiles, angles and lines.

Jointless design
Uniform surface with no edges or borders thanks to the extraordinary plasticity of the material.

Antibacterial
Zero porosity surface that prevents the absorption of liquids and the proliferation of humidity and bacteria.

Repairable
Solid material that can be easily repaired and restored to its original appearance.

Sustainable
Composed of organic and 100% recyclable materials.

Cut to size
Easily adaptable to all types of spaces since it can be cut to size.

Roca Rimless®

Easy cleaning
By eliminating the rim, there are no longer any corners or nooks on the inside of the walls, making cleaning easier.

Hygiene
Effective and silent flush with maximum power that propels the water with more force and distributes it evenly over the entire surface.

No splashback
Slight rim on the top of the bowl to prevent water from spilling over.

Supralit®

Antibacterial
Zero porosity surface that prevents the absorption of liquids and the proliferation of humidity and bacteria.

Easy cleaning
Seats free of corners where dirt can accumulate, making maintenance easier.

Resistance
Exclusive formulation highly resistant to chemicals and ultraviolet light.

Ohtake

1938-2021

Ruy Ohtake

Born in Brazil, the son of Japanese-Brazilian Tomie Ohtake, one of Brazil's leading artists, Ohtake grew up in a highly cultured environment, exposed to the world of art and design. He studied Architecture in São Paulo, under João Vilanova Artigas, worked with Oscar Niemeyer, and then went on to establish his own practice, designing over 400 buildings throughout his long career, many of them in his hometown, the city of São Paulo.

Among his career highlights are the house/studio designed for his mother, in the early days of his office, and the half-circle shaped Hotel Unique, considered by many an icon of the Brazilian boom of the 2000's and his years long collaboration with the community of the Heliópolis favela. A multi-faceted designer, Ohtake was also known for his product designs, bringing his originality and whimsical creations to one of furniture pieces, commercial collections, table-top items, and rugs creations.

An enthusiastic speaker, he was a well sought-after lecturer, travelling both domestically and abroad for speaking engagements.

He was the recipient of many national and international awards and honors, including the "Best of the Best" Red Dot Design Award in 2019 for his design for Roca's Ruy Ohtake Collection. He passed away in November 2021, at the age of 83 and since then his office is led by his son, architect and designer Rodrigo Ohtake.
